ABOUT US

mSofTek Solutions established in December 2010, specializes in providing high quality Technical Consulting services, innovative customized ERP designs and solutions, and support to companies that use Epicor ERP, Kinetic and iScala ERP softwares. mSofTek is accomplished to support, customize, and enhance Epicor systems. mSofTek is also involved in customized software development projects, system designs and system integrations.

mSofTek is a consulting partner of Epicor Software and many Epicor Partners internationally. With decades of experience working with Epicor ERP and iScala ERP on customizations, system integration, Service Connect, implementations, upgrades, SSRS, Crystal Reports, custom development, consulting, and support, mSofTek aces in providing Technical Consultancy for Epicor ERP, Kinetic and iScala ERP. Our technical consultants have experience and knowledge of new Kinetic platform, its Application Studio development and also Classic Epicor customization upgrade to New Application Studio Components.

mSofTek has supported and provided solutions to multiple small-mid-large organizations including Fortune 500 companies and Government organizations internationally. mSofTek has helped organizations of all sizes across the globe to make optimal decisions that improve profitability and achieve real results across multiple industries such as manufacturing, distributors and suppliers, electric and trading, Oil & Gas, construction and real estate, marine services, transportation and logistics, retail, pharmaceutical, service industries, and many more in diverse cultures by ensuring that the technology, business processes and system support work together and in alignment with each customer's ideal and strategic goal.

OUR TEAM

The organization is headed by Mubin Upade, ex-Epicor personnel, who has worked at Epicor Software internationally for over a decade. He is certified in Epicor ERP, iScala ERP and Epicor Signature Methodology. He is also Software Quality and Microsoft certified, holding professional qualifications of B. Eng. (Computers) and MBA with more than 25 years of experience in the IT industry, of which 20 years are in ERP and related areas.

Our key strength is our team, which consists of qualified and proficient consultants that understand the client requirements and work together to design, execute, and implement scalable and innovative business solutions. Our consultants offer their expertise and knowledge in every engagement with the client.

mSofTek expert development team can create advanced dashboards, system customizations in Kinetic Application Studio, business process enhancements, system integration, BPMs, BI, process automation and much more in your Epicor Kinetic system to help you take full advantage of extensive new version capabilities.

OUR APPROACH TO PROJECTS

We continuously aim to improve the delivery of projects through the incorporation of knowledge and experience by maintaining a core team of skilled resources, so that the correct scope is implemented to address the need and the project objectives, ensuring delivery in the best possible time and quality.

While we maintain focus on the discipline of project management, our strong technical consultancy profile adds significant value, as we assist in planning and designing of business solutions.

We strive for continuous improvement and consider meeting client requirements as the minimum performance criteria and aim to surpass expectations.

“

We provide every client with high quality service to help them make optimal decisions, with provision of after support based on time and material or AMC, with a view of long term partnership
